

6516209683.txt

As an XM listener and a truck driver, I find having the local weather and traffic info instantly at my fingertips very advantageous to my job. I no longer have to search all over the dial in the area that I am entering to find these items. I can concentrate totally on my job, without any distractions. Please reject NAB petition 04-160, I pay for the services that XM offers and I should be able to listen to the programming I demand and deserve. Thank you,

I remain yours respectfully,
Sharon Van Brunt
